

A Note on Upcoming Detective Results and Lieutenant Results

Detective results are coming shortly as we expect these to be posted toward the earlier half of the week of October 9th. Results, similar to other ranks, will be posted by the last 2-3 digits of the reported SSN to allow candidates to remain anonymous to others. You will only receive your overall/final score at this time. Later, IOS will prepare individual score reports that will present your scores on the specific exercises, questions, etc., along with very brief narrative information. We understand individuals are eager to receive these results and will work to get these to individuals as soon as possible!

Lieutenant results are projected for December due to oversight from the U.S. DOJ Civil Litigation Division. The city has been under such oversight since the mid 70's based on previous patterns and practices and is actively working with authorities to ensure compliance with the requirements of the order. In such circumstances, due to the review and evaluation requirements, the results take longer to be finalized. In recent work with other jurisdictions, this process has taken approximately 8-10 weeks from the test date. We will post a new document to the website if there is a significant update (substantial delay or eminent results) on this status. We understand it is difficult to wait and all will work to make this delay as short as is possible given the requirements and need for careful review.
